Get in on Nevada's best kept secret!

Nevada's Conservation Districts (CD's) are governmental entities, much like school boards, directed by locally elected volunteer residents and founded, along with 3,000 CD's nationally, in 1937 on the philosophy that conservation decisions should be made at the local level with a focus on voluntary, incentive-based actions. In Nevada, where the federal government administers and manages more than 85% of the land, CD's serve a vital role to connect private and public interests. NRS Chapter 548 gives CD's specific authorities that allow them to be the best mechanism to plan and administer work done to answer local conservation needs.

The Legislative District you represent is found within one or more of Nevada's 28 Conservation Districts. (map on reverse). The State Conservation Commission (SCC) is appointed by the Governor to guide and regulate the CD's, assisted by the DCNR Conservation District Program headed by Tim Rubald. The Nevada Association of Conservation Districts (NvACD) serves as a statewide voice for conservation districts; as a non-governmental entity, NvACD can lobby, unlike the Conservation District Program in DCNR or the SCC, and can speak for all CD Supervisors to bring attention to issues. It also provides forums to train and educate supervisors and recognize outstanding district individuals and programs.
