

MEET NEVADA'S 28 CONSERVATION DISTRICTS!

FY 2016 – Nevada Conservation Districts leverage \$112,000 from the annual legislative grant to CDs into \$2,927,172, including in-kind contributions and partner matches:

EVERY \$1 BECAME \$30 BY CDs WORKING TO IMPROVE AND CONSERVE NEVADA!

In Addition, FY 2016, State Conservation Commission offers \$80,000 Sage-Grouse Habitat Grant (\$40,000 from Legislature + \$40,000 from USDA Natural Resources Conservation Service)
12 applications requested \$205,111 of SCC funds; they also brought \$234,937 match, equaling \$440,049 in total project dollar opportunity.

Get in on Nevada's best kept secret!

Nevada's Conservation Districts (CD's) are governmental entities, much like school boards, directed by locally elected volunteer residents and founded, along with 3,000 CD's nationally, in 1937 on the philosophy that conservation decisions should be made at the local level with a focus on voluntary, incentive-based actions. In Nevada, where the federal government administers and manages more than 85% of the land, CD's serve a vital role to connect private and public interests. NRS Chapter 548 gives CD's specific authorities that allow them to be the best mechanism to plan and administer work done to answer local conservation needs.

The Legislative District you represent is found within one or more of Nevada's 28 Conservation Districts. (map on reverse). The State Conservation Commission (SCC) is appointed by the Governor to guide and regulate the CD's, assisted by the DCNR Conservation District Program headed by Tim Rubald. The Nevada Association of Conservation Districts (NvACD) serves as a statewide voice for conservation districts; as a non-governmental entity, NvACD can lobby, unlike the Conservation District Program in DCNR or the SCC, and can speak for all CD Supervisors to bring attention to issues. It also provides forums to train and educate supervisors and recognize outstanding district individuals and programs. More information is available at <http://dcur.nv.gov/conservation-district-program> and <http://nvacd.org>.

CD Name: Smith Valley Conservation District

Contact Information: Ed Ryan, District Manager

Activities & Projects: The Smith Valley Conservation District provides noxious weed inventory, mapping, and control along the Walker River Corridor on all lands regardless of ownership with funds from the Forest Service Resource Advisory Committee, the Bureau of Land Management, the Nevada Department of Agriculture, the US Fish and Wildlife Service, and the Bureau of Reclamation. The District is also working with the Nevada Department of Agriculture, the Nevada Department of Wildlife, and the Forest Service Resource Advisory Council to eradicate the only known infestation of Medusahead in Lyon County. This particular area is especially important because it affects several leks and brooding areas for the Bi-State Sage Grouse. We have worked with National Fish and Wildlife Foundation and Walker Basin Conservancy to

restore retired farmlands they have purchased to a native vegetation. Working with the Nevada Division of Forestry, the Smith Valley Conservation District has removed pinyon and juniper to improve critical Bi-State Sage Grouse habitat in the Sweetwater Flats area of Lyon County. Also working with the Nevada Division of Forestry, the District has completed a Community Wildfire Preparedness Plan, and has modified fuels to provide for wildland fire fuel breaks in the Smith Valley Wildland Urban Interface. Through a grant from the National Fish and Wildlife Foundation, the District has employed youth, training them in the job skills required for noxious weed control, Sage Grouse habitat improvement, and retired farmland restoration.
